

Recycle

Paper, Magazines, Card, Cardboard

Food & Drink Cans

Plastic Bottles

Aerosols

Yoghurt pots & meat trays

Shredded paper

Coated juice & milk cartons

Food waste

Sacks & carrier bags

It's good to know:

When is your bin day?

Check online at

www.northumberland.gov.uk

39,000 homes checked their collection day online during the Christmas 2016 season.

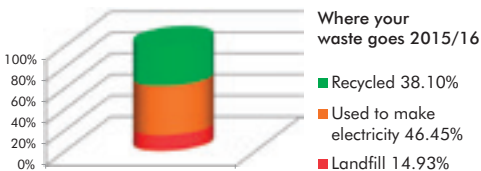

What happens to your waste?

In 2015/16

58,000 Tonnes of your waste was reclaimed, composted or sent to be reprocessed into newspapers, cars and plastic street furniture – and lots more things besides.

How much of your waste is recycled?

38% of your waste is recycled, 46.45% is sent to the Energy from Waste plant, and less than 15% is sent to landfill. The landfill waste is usually made up of items which cannot be fed through the energy from waste plant like mattresses and sofas.

What happens to the rubbish in the non-recycling bin?

The waste you put in your rubbish bin (as compared to your recycling bin) is taken to Stockton-on-Tees energy from waste plant. It is burnt to produce electricity. Last year your rubbish made enough electricity (43,000 MW) to power all homes in Morpeth plus a few more streets.
